**What the heck is flux?! Pickle?!
And heaven forbid - fire scale?!**

Learn the language, tools and tips for silversmithing.

In this 6 WEEK workshop discover basic silversmithing and how to solder a bezel and set a cabochon to create a pendant & substantial sterling silver ring.

The technique allows you to use an inexpensive butane torch and a minimum of tools, many of which you may already have. Wouldn't it be great to be able to say "I made it" when people comment on your bodacious ring and pendant!?

The soldering techniques you learn in this class are also used in many other types of contemporary jewelry and other styles of silversmithing.

**BEGINNERS WELCOME!!!
DRESS FOR A MESS!!**
