

KEUM BOO & PMC

Left: PMC3 Pendant with 24k gold

Top: Sterling Silver with 24k gold

November 17, 2011 (9am-5pm)
Donelson Fifty Forward Center - MTGMS

Keum Boo is an ancient Asian technique of bonding (diffusion) 24k gold foil to fine silver. In this class the student will create a lightly textured pendant with PMC3 clay. The student will then accent the pendant with the 24k gold foil by using the Keum Boo technique. The class will begin with a short review of PMC. Techniques covered will also include: construction, bail making, sanding, kiln firing, burnishing, Keum Boo, finishing and patina. In addition, we will discuss the process of using sterling silver after depletion gilding. This class is an excellent way to learn about the Keum Boo process and how to create multi metal creations.

Workshop kit: \$ 75.00 - 100.00 in addition to Center Fee \$ 15.00 Fifty Forward member or \$ 30.00 non-member, plus \$ 10.00 MTGMS fee.

INSTRUCTOR: Teva Chaffin, PMC Connection Senior Instructor
